

19 JUN 1981

MEMORANDUM FOR: Chief, Latin America Division

FROM:

[REDACTED]  
Chief, Information Management Staff

SUBJECT:

Critical Operational Need for Word  
Processing Equipment in [REDACTED]  
Latin America Division [REDACTED]

25X1

25X1

1. Reference your memorandum to me, subject as above, dated 28 May 1981. IMS has reviewed your request for word processing equipment in [REDACTED]. We readily recognize the validity of your requirement and are taking action to obtain the necessary equipment for you as soon as possible. [REDACTED]

2. My staff has prepared written justification for 10 single station Lanier model LTE-3 word processors: four dual disk units with printers, four single disk units with printers, and two single disk units with shared printer options. However, due to budgetary limitations, we are requesting that only five systems be acquired (leased) at this time. We will request the remaining five units whenever funds become available. [REDACTED]

3. We are hopeful that we can arrange for delivery of this equipment by the end of this month. In the meantime, we have made available two systems on loan from SE Division. [REDACTED]

4. Further details can be obtained from [REDACTED]
